University of Wisconsin - Whitewater

Summer Library Hours

Day	Library	Reference Desk
Mon-Thurs	7am-9pm	9am-8pm
Fri	7am-4:30pm	9am-4:30pm
Sat	Closed	Closed
Sun	12 noon-8pm	12 noon-8pm

See <http://library.uww.edu/hours.html> for holiday and intersession hours.

Are You Game? Nintendo 3DS Is

Librarians have been working closely with the Media Arts & Game Development faculty to develop the Library's video games collection. We recently began purchasing Nintendo 3D games in addition to the collection of Xbox 360, PS3 and Wii games.

We've also acquired a Nintendo 3DS gaming console and will add two more 3DS consoles this month.

The 3DS consoles may be checked out for three days, while games circulate for seven days.

Chronicling Our Gaming Efforts

Andersen Library is just one of many academic libraries endeavoring to support its university's multimedia programs with video games, gaming rooms, and consoles. This topic was featured in a recent Chronicle of Higher Education article that mentioned UW-Whitewater's video game collection as an example of the role libraries are playing in the gaming curriculum. <http://tinyurl.com/5wbrry3>

THE CHRONICLE
of Higher Education

Library Research Fellowship

Here is an opportunity to greatly expand your access to online research resources. The Library Research Fellows Program allows fellows to remotely access many of UW Madison's online databases for their research projects.

Faculty may request a Library Research Fellowship for a term of six months with the option of a competitive renewal for up to one year. The **application deadline for Summer/Fall Fellows is Monday, May 9**, so hurry!

To learn more about the program and download an application, see the Office of Research and Sponsored Programs' web site:

FedFlix: Streaming Gov Docs

With the societal shift from print to digital, the federal government has found a way to save taxpayer dollars by putting many federal depository documents online.

So it's not surprising that the Feds have begun to offer some of their films in streaming format. Fedflix is a joint venture between the National Technical Information Service and Public.Resource.Org and offers more than 6,800 films.

While Fedflix isn't likely to offer any serious competition to Netflix, it's worth taking a closer look to see if there is relevant content in your teaching or research areas. <http://www.archive.org/details/FedFlix>
